1. Creación del proyecto

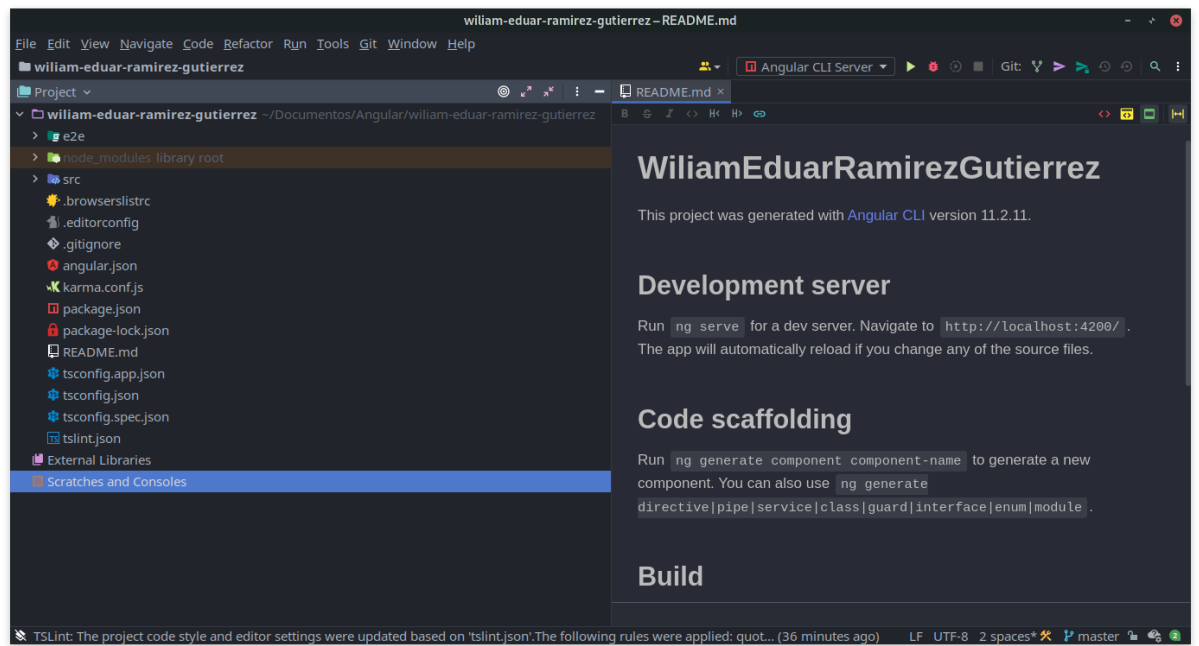

A terminal window with a dark background. The title bar shows a plus icon, the text 'ng new wiliam-eduar-ramirez-gutierrez', and standard window controls. The terminal content shows the command 'ng new wiliam-eduar-ramirez-gutierrez' being executed. It prompts for 'strict' mode, which is confirmed with 'Yes'. It then asks if Angular routing should be added, with 'No' selected. Finally, it asks for a stylesheet format, with 'CSS' selected. A list of options with their respective URLs is shown: SCSS, Sass, Less, and Stylus.

```
ng new wiliam-eduar-ramirez-gutierrez
~/angular ng new wiliam-eduar-ramirez-gutierrez
? Do you want to enforce stricter type checking and stricter bundle budgets in the workspace?
  This setting helps improve maintainability and catch bugs ahead of time.
