“INFORME DE LABORATORIO DESARROLLO WEB”

Alumno : Ramirez Gutierrez, Wiliam Eduar

Docente : Ing. Vila Quispe, Carlos

Ayacucho, mayo del 2021

EJERCICIO NRO. 001

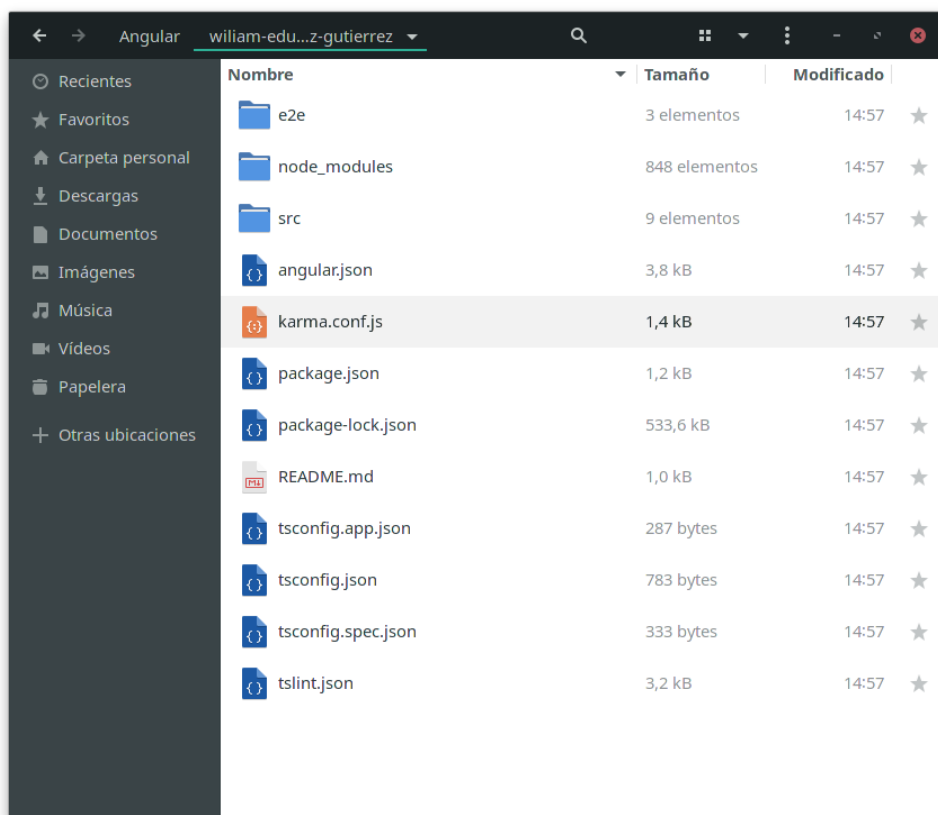

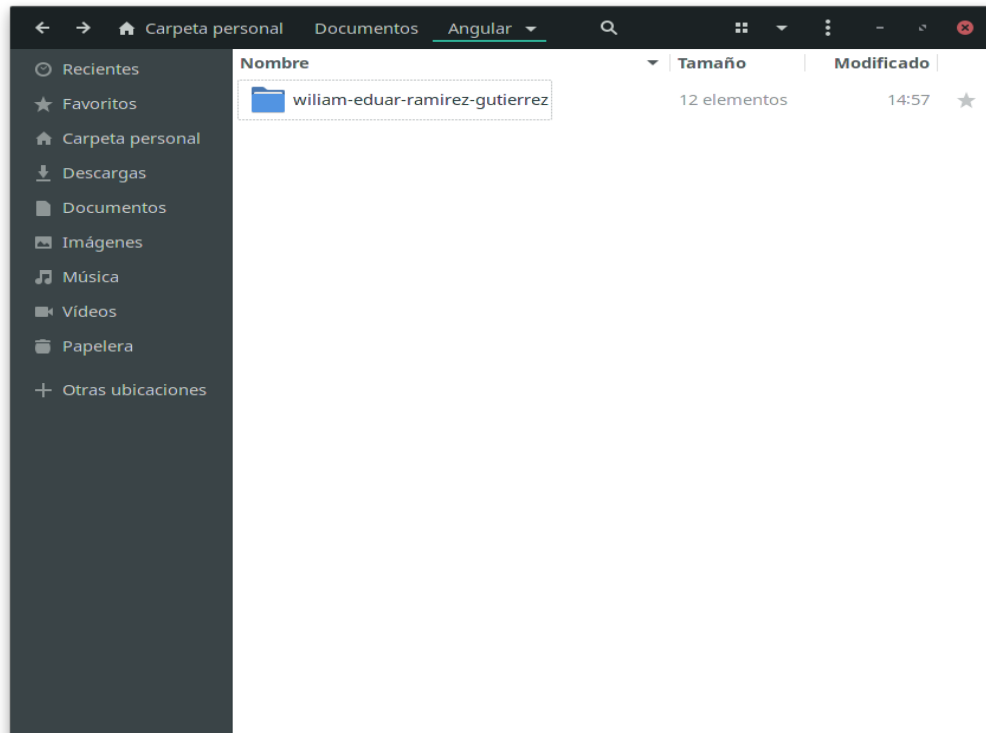

1. Creación del proyecto

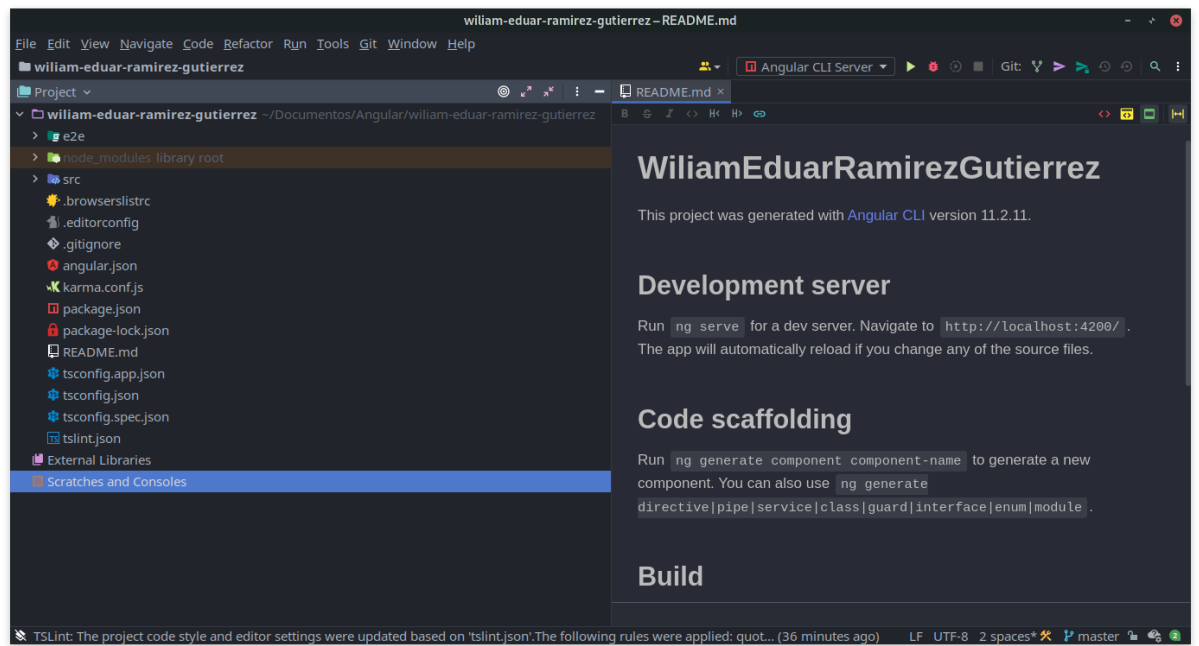

A terminal window titled "ng new wiliam-eduar-ramirez-gutierrez" showing the execution of the Angular CLI command "ng new wiliam-eduar-ramirez-gutierrez". The terminal displays a series of prompts and user responses for configuring the new project. The prompts include whether to enforce stricter type checking and bundle budgets, whether to add Angular routing, and which stylesheet format to use. The user has responded "Yes" to the first prompt, "No" to the second, and "CSS" to the third. The terminal also lists the URLs for the selected stylesheet formats: SCSS, Sass, Less, and Stylus.

```
ng new wiliam-eduar-ramirez-gutierrez
~/angular ng new wiliam-eduar-ramirez-gutierrez
? Do you want to enforce stricter type checking and stricter bundle budgets in the workspace?
  This setting helps improve maintainability and catch bugs ahead of time.
  For more information, see https://angular.io/strict Yes
? Would you like to add Angular routing? No
? Which stylesheet format would you like to use? (Use arrow keys)
> CSS
  SCSS [ https://sass-lang.com/documentation/syntax#scss ]
  Sass [ https://sass-lang.com/documentation/syntax#the-indented-syntax ]
  Less [ http://lesscss.org ]
  Stylus [ https://stylus-lang.com ]
```
